

# MOBILE PAYMENT

## POS on Your Phone Equals Power

Mobile Payment Solution with Clover Virtual Terminal allows for secure payment processing without signing up for any hardware. With minimal cost, businesses can be ready to meet even impromptu opportunities and reach new audiences. In addition to accepting payments and issuing invoices, Clover Virtual Terminal enables you to set up your inventory, manage employees, run detailed reports, and so much more.

If it's time to hit the road, we got you covered with an on line platform that can process your payments anytime, anywhere, straight from your mobile phone. Of course, you are granted the same access from multiple devices, so you can use the Virtual Terminal from your computer as well as your tablet to suit your every need.

### Accept Popular Payment Choices

Accept Interac debit, Visa, Mastercard, as well as other credit card options such as AMEX, Discover, and Union Pay.

### Flexibility on the Spot

Reliably process payments, issue refunds, and send email receipts by logging into the Clover Web Dashboard from your phone.

### Safety Matters

Clover Virtual Terminal is PCI compliant, secured by end-to-end encryption.

### Modern Invoicing

Just the same way you would take debit and credit card payments, you can also use the same platform to issue invoices and let your customers type in their card credentials right from their email inbox via the payment link.

### Card on File

Clover Virtual terminal safely stores card information of your regulars so you can administer faster transactions and set recurring payments.

### More Than Payments

Within minutes create loyalty programs and launch direct marketing campaigns to the contacts you've collected. Utilizing the cloud-based Clover Dashboard, track your sales, discover your best-selling items and the ones that didn't perform as well.

### Grow your Business

Eventually, your business may need some additional support to follow your growing trends, at which point it will be easy to add Clover POS hardware already compatible with your Mobile Payment Solution. We can provide you with Clover terminals at any stage of your business expansion while you will be able to continue to use your Virtual Terminal free of charge.
